It that Democratic Grand Jury of Kenton County will continue its good work, the public will soon know a good deal more of the inequities of the Goebel gang.

The Lexington Leader indulges in this strenuous language in referring to an odorous gang:

"Covington and Kenton county have certainly had a surfeit of the Goebels and Goebelism when on the same day a Democratic primary defeats MAR HARRISON, the late Senator's law partner and successor in the State Senate, and a Democratic Grand Jury indicts JUSTUS GOEBEL, the usurping Governor's avenging brother."

"The Democrats at GOEBEL's home at last realize what the party leaders here in Lexington and throughout the state have long known—that the Goebels and Goebelism have brought nothing but curses upon Democracy, and it looks as though they intend to kick them out of the party and out of the state."

SENSATION EXPLODED.

"Innocent Girl" Assaulted at Firebrick Proves a "Tough Nut."

After the sensation-loving journals have expended columns and columns in space—writing about an outrage committed upon an innocent Ohio county girl at Firebrick, Lewis county, the Portsmouth Police put a severe crimp in their soul-barring, hair-raising and mob-producing story.

The girl's name is Anna Canter; her home is in Jackson county, O.; she belongs to a family of toughs, and is herself a post-graduate in the fine art of whiskey-drinking, and frequently toasts master to a kindred gang in the "Ladies' Sitting Room" of a booze foundry. Her face and form are said to be sufficient to stop a traction engine, while her breath would paralyze a natural gas-well.

Happenings in Kentucky PRECAUTIONS TAKEN.

Guards May Watch the Boundary Line of Kentucky to Keep Out Visitors Having Smallpox.

Louisville, Ky., July 8.—The executive committee of the state board of health has been instructed to look into the danger of smallpox being brought into Kentucky from West Virginia and Tennessee. It is found that the matter is as represented, strict quarantine will be established against these states unless they take action toward the suppression of the disease. The state of Kentucky has been spending thousands of dollars combating the disease, but it is found that as fast as wiped out in one section it will appear in another. It is charged that this is due to the fact that it is brought in from the adjoining states. The executive committee is composed of Drs. Mathews, McCormick and Bailey, and it will take decisive action, even if it is necessary to put guards on the border line of the states.

The committee will also prepare and present to the next state legislative assembly a bill to prevent the pollution of the water courses of the state. An instance cited is that of a stream near Mt. Sterling polluted by a dairy, the effects of which are felt in several cities. It will also confer with representatives of the medical schools of the state with regard to the passage of a law instituting a special examination board for young physicians who wish to practice in Kentucky. The state board looks after this now, and men are permitted to practice on their diplomas from a four-year school.

Lexington, Ky., July 8.—Milton Kendall, of this city, after years of misfortune, and just acquitted on the charge of having killed Eugene Case, sell in this county about 18 months ago, has at last experienced a change in luck. He discovered the paper by accident at the death of his father-in-law and only recently obtained judgment for 800 acres. He investigated the matter and discovered that the capitol of Texas the record of the other grants and since the discovery of oil he has determined to push his claim.

Kendall has been involved in numerous lawsuits and this has prevented him from devoting time to his Texas holdings. He is now living in comparative poverty.

UNREQUITED LOVE.
Harry Graven Made Four Attempts at Suicide But Some One Always Interfered.

Louisville, Ky., July 8.—Harry Graven, of this city, has made four attempts at suicide recently, all unsuccessful. Unrequited love is said to be the cause. The young man, who is 20 years old, took laudanum six weeks ago. A stomach pump drew him back from the land of shadows. That he had pulled him out of his wrist. A physician sewed it up before he had lost enough blood to count. Saturday afternoon he leaped into the river and the undertaker pulled him out and he was arrested charged with disorderly conduct. Saturday night he tried to tie the arteries in his throat and beat his head out on the bars. A big policeman tied his hands and feet and it begins to look as if Graven will have to live a while after all.

This dear old spot where six of his seven children were born and where two of them took their flight to the Glory World; and from whose portals his dear mother followed her husband to his last resting-place on the premises, near the residence, and where rests the ashes of Peter and the wife of his youth! Over whose sunny hillside and bluegrass slopes his mother reigned as queen for forty-six years, from 1841 to 1886, from whence she was taken to rest by the side of her son, John, in beautiful Bethany Cemetery, to await the resurrection morning! This ancestral home, fraught with memories both sad and sweet, the writer desires to transmit to some one of his sons, with the fond hope that he will in good faith keep and transmit it to the succeeding generation.

Men's Waists

Men's SHIRTWAISTS

We take pleasure to call attention to our

D. HECHINGER & CO.

To secure choice patterns come quick. There is such a demand for this garment that it is difficult to get them from the manufacturers.

An Open Letter.

We desire to say that our business since January 1st has passed the mark anticipated. We wish to be frank; therefore we are not attempting to talk to business people and put it in the form of a polished essay. The advantage of having merchandise different from your competitors is apparent, provided that the retailer is known to be reliable. Does not a good deal of advertising appear to you as though the advertisers were indulging too freely in fine words? Most of them seem to say something that means nothing. Names are invented for goods that have no bearing whatever to the materials; turned and twisted until they are no longer relevant, all of which is done to tone the product, because the product hasn't enough of it. Fine feathers make fine birds, but fine words do not make fine goods. We are strong believers in advertising because it is a good thing, but advertising doesn't pay unless constructed on a proper basis, and that is to plainly tell people what you have to sell, and sell it as low as is consistent with legitimate business methods.

Our spring importation of Dress Goods, White Goods, Carpets, Mattings and Housekeeping Goods generally is complete. Come and learn prices, which will be found to be as cheap as the cheapest, quality considered. Respectfully,

GEORGE COX & SON.
